

Converter Sheet 15°_45°

QuadraLite

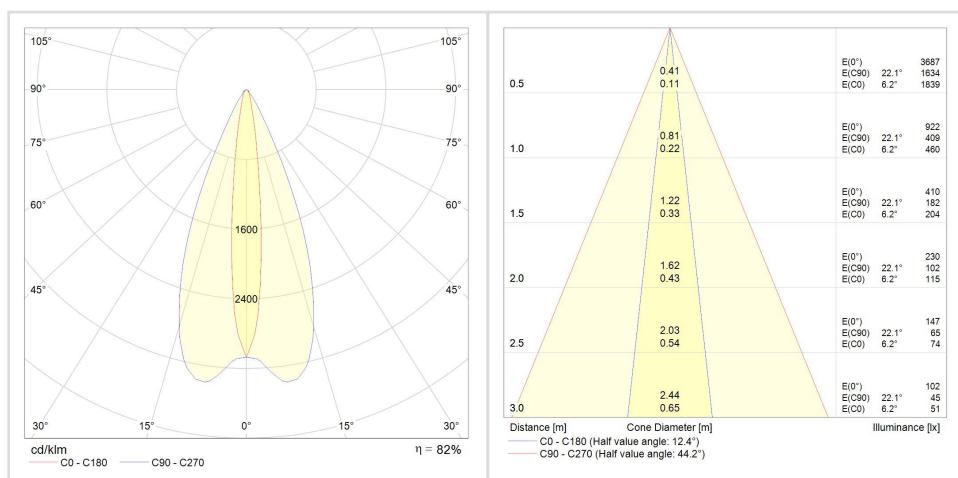

Accessory "converter" to match the Quadra Lite lens base code QL4XRHPC_12, to obtain an oval light aperture of 15 ° x45 °. The major axis of the elliptical beam is perpendicular to the screen of the converter. This converter must be assembled with the striped surface facing the base lens. It is also suitable for RGBW lighting.

Technical data

Code	CSQL4XR_15_45
Description	Converter Sheet 15°_45°
Width (mm)	23,5
Length (mm)	23,5
Thickness (mm)	1

FWHM (°)	15/45
Material	PMMA
Finish	Clear
Family	QuadraLite

Photometric diagrams and polar or Cartesian charts

Ligthing data referenced to 4 LUXEON REBEL LEDs of 75 lm, total 300lm.
